# User manual

product description

The wireless charging desk lamp is a beautiful and fashionable product, intelligent and versatile, and the design is simple and generous. The desk lamp source adopts secondary optical technology, and the light is soft and uniform without dark spots. High-efficiency light, high color rendering index, long-life LED light source, driven by advanced constant current technol -ogy, no stroboscopic, protects vision. The height of the lamp can be adjusted in any range of 40 cm, and the lamp head can be adjusted up and down by 120 degrees, which is convenient for the user to adjust to the best use position.

The wireless transmitter module is compatible with any Qi standard mobile phone and device. The charging device is plugged in and out conveniently and quickly. Provide you with an unfettered life experience and enjoy a free and secure wireless charging experience.

A USB cable charging interface is also provided to charge a mobile phone or device that does not receive wireless reception.

Wireless charging device

1. Built-in wireless charging receiver (supports all wireless charging devices)
2. There is a reserved wireless charging interface, and the receiver coil needs to be installed:
3. Need to install equipment with receiver protection
(Note: These receivers must comply with the WPC QI standard to be compatible)
In addition,

Instructions for use

1. Plug the PD power micro USB port into the power input of the desk lamp. (As shown below)

2. After power on, you can use the desk lamp according to the function diagram of the previous page button.
3. Place the device with the wireless charging receiver on the wireless charger of the desk lamp. Note that the center of the receiving coil needs to be aligned with the center of the wireless charger indicating the desk lamp. When charging, the charging indicator will light blue. When the charging device is not in use, the indicator will light red. When the battery cannot be charged after checking, the indicator light will flash red and blue. (For example, the coin iron block does not have a wireless charging device phone), after the charging device is removed, the indicator light is red.

4. When using the line charger, insert one end of the USB charging cable into the USB port at the end of the desk lamp, and connect the other end to the mobile phone.
(As shown below)

Parts List
HW-1812 wireless charging desk lamp
5V/3A power adapter
User manual

Product specifications
Input: DC 5V/3A
Table lamp output: 5W
Number of LEDs: 48 2835
Color rendering index: 880max
Center illumination: 8001 ux color temperature
Color temperature: white (6000-6500K) warm white (2800-3500K)
Light source life: 50,000 hours
Wireless charging output: 5W
Transmission distance: ≤8mm
Charging efficiency: ≥76%
Size: length 180X width 120X height 567mm
Weight: 600g

Precautions
1. To ensure the use of the effect, please be sure to use the power adapter and high quality wire output from DC5V/3A.
2. Please pay special attention to when the desk lamp is DC 5V/2.5A, wireless charging, USB cable charging and desk lamp function, you can not use three functions at the same time, only two functions can be used at the same time.
3. Please keep the charger and receiver away from water and other liquids.
4. If you need to clean the charger, please make sure it is disconnected from the power supply.
5. The ambient temperature is maintained at 0-45 ° C
